

SUITABLE FOR

- Utility Equipment
- Construction
- Municipal Administration
- Mining
- Quarry
- Road Work
- Sandblasting
- Much More!

CFAIR 185B-7 BOX-TYPE DIESEL DRIVEN SCREW AIR COMPRESSOR

Standard Configuration

- GHH Head
- SKF Bearings
- Nano Air Filter Element
- Standard Traction
- Designed For Frequent Road Hauling

- Heavy Duty Steel Base**
- 110% Fluid Isolation
 - Simple, Easy-To-Use Control Panel

Silent Design Air Compressor

This air compressor is equipped with an ISUZU engine, providing excellent power and reliability. The special silencer system effectively reduces noise and improves the comfort of the working environment. Stainless steel components ensure corrosion resistance and durability, extend service life and ensure efficient and stable compressed air supply.

// Product Parameters

Compressor	
Free Air Delivery (CFM/M3/MIN)	185/5.2
Working Pressure (BAR/PSI)	7/101.5
Sound Level dB (A) @ 1m	78
Air Cleaner	Dry Paper Filter Type
Compressor Oil Capacity	32
Air Outlets	3/4" x 3

Engine	
Engine Model	ISUZU
Engine Type	4 Cylinder, Direct-Injection
Nominal Power (KW)	41
Fuel Tank (L)	80
Emission	China Stage II

Dimensions	
Weight (KG)	930
Max Length (MM)	2100
Width (MM)	980
Height (MM)	1100

Oil Separator-Receiver Tank	
Shell Dia (MM)	250
Shell Length (MM)	784
Max.Working Pressure (MPa)	1.58
Hydraulic Test Pressure (MPa)	2.37
